

local repo

The diagram illustrates a distributed version control system architecture. It is divided into three horizontal sections. The top section contains a single red rounded rectangle labeled 'local repo'. The middle section is a light gray horizontal band labeled 'internet' on the left side, containing two blue rounded rectangles, each labeled 'public repo'. The bottom section contains a green rounded rectangle labeled 'local repo', which is positioned above three small yellow rounded rectangles labeled 'A', 'B', and 'C'.
